Everfocus Speed Dome Camera & Controller

ED2250 Speed Dome Camera

Speed Dome Camera with a high specification for professional applications. Features superior optics for excellent vision and fast response to commands. Ideal for Audio Visual, training environments, lectures theatres and entertainment venues. The small size of the unit means it can blend into any installation.

Features:

22x optical and 10x digital zoom; 128 programmable presets; Day / night function with automatic mechanical IR-cut filter for high infrared sensitivity
Digital Slow Shutter function for sensitivity increase under low light conditions
Back light compensation; Works with Universal Keyboard controller

Multifunction Universal Control Keyboard for the operation of Speed Dome Cameras. Controls for zoom, focus, iris, presets and the full movement of the Speed Dome. The central joystick features proportional movement with full calibration allowing the operator to achieve variable speed of pan and tilt. This allows for fast movement to the next shot as well as slow, sensitive movement on a subject even with a close-up.
